

Leamington Water Services

Seasonal hydrant flushing in the Municipality of Leamington will be conducted as required from March to December.

Hydrant Flushing is a normal maintenance procedure and may result in customers experiencing rusty or milky water conditions. Please check when running water and if discolouration occurs, run cold water taps until the water clears.

Hydrant flushing will occur between the hours of 7:30 a.m. and 4:00 p.m.

All customers should note that flushing of watermains may be required without notification at different times throughout the year in order to ensure water quality.

Thanks for your cooperation!

NEED MORE INFORMATION

Call Leamington Water Services at 326-4454

Monday to Friday from 7:30 am to 4:00 pm and ask to speak to Gary Foisy, Water Manager or Nelson Carvalho, Water Supervisor.
