

Municipality of Leamington Notice of Public Consultation Municipal Class Environmental Assessment - Pump Station #200

The Municipality of Leamington has retained the services of RC Spencer Associates Inc. to complete the Class Environmental Assessment (EA) for the relocation and upgrading of the existing sanitary sewage Pump Station No. 200 located on Robson Road at Bruce Avenue in the Municipality of Leamington. The relocation and upgrading is being evaluated due to the need for renewal of the existing pump station infrastructure.

The purpose of the Class EA is to confirm the preferred location and solution for the renewed pump station infrastructure. This project is being completed under the planning and design process for a Schedule B project as outlined in the Municipal Engineers Association's Municipal Class Environmental Assessment.

Public Comments are Invited

Public consultation is important to the success of the study.

The "Draft EA" is now available for review and can be accessed through the Municipality's website at www.leamington.ca/projects.

There are also hard copies available at the following location during regular business hours:

Municipality of Leamington (main floor gallery)
111 Erie Street North
Leamington, ON N8H 2Z9

Residents and interested stakeholders are welcome to review the recommendations and provide any input/feedback, review outstanding issues and bring concerns to the attention of the project team. Please provide written comments (dropped off, emailed or mailed) to one of the team members below no later than **June 13, 2022**.

The Public Consultation period will begin May 25, 2022 through to June 8, 2022. Comments are due by June 13, 2022.

Information collected for the study will be used in accordance with the *Municipal Freedom of Information and Protection of Privacy Act*. With the exception of personal information, all comments will become part of the public record and included in the project documentation.
