

**Municipality of Leamington
Notice of Study Completion
Municipal Class Environmental Assessment
Pump Station #200**

The Municipality of Leamington retained the services of RC Spencer Associates Inc. to complete the Class Environmental assessment (EA) for the relocation and upgrading for the existing sanitary sewage Pump Station No. 200 located on Robson Road at Bruce Avenue in the Municipality of Leamington. The relocation and upgrading have been evaluated due to the need for renewal for the existing pump station infrastructure.

The major features of the preferred alternative design are as follows:

- Decommissioning of the existing pump station;
- Decommissioning of the existing 150mm diameter forcemain from the existing pump station to the new tie-in point northerly;
- Decommissioning of approximately 30m of existing 250mm diameter sanitary gravity sewer;
- Construction of a new pump station complete within the current municipal property immediately east of Mun. No. 24 Robson Road;
- Construction of a new 150mm dia. Forcemain from the new pump station to reconnect to the existing forcemain to the north;
- Replacement of the gravity sanitary sewer with a new directionally-drilled 300mm diameter gravity sanitary sewer north of the Robson Road;
- No asphalt road reconstruction is necessary and no traffic detouring;
- New asphalt parking area and commercial driveway off Robson Road for maintenance of the pumping station.

This study has been completed under the planning and design process for a Schedule B project as outlined in the Municipal Engineers Association's *Municipal Class Environmental Assessment* and is available on the municipal website at www.lemington.ca/projects.

A Public Consultation was held from May 25, 2022 through to June 8, 2022, to provide necessary background and information needed to determine the renewal and relocation of the pump station. Comments were due by June 13, 2022.

If you have any comments, questions or concerns regarding the information provided in this report, please contact either of the following, no later than **July 28, 2022**:

Mr. Gaspare Graziano, C.E.T.

Interested persons are encouraged to review the document and provide written comments to the Municipality of Leamington by **July 28, 2022**.

If you have outstanding environmental issues that have not been addressed through the Municipal Class EA process, a request may be made to the Ministry of the Environment, Conservation and Parks for a more comprehensive study. These requests can only be made on the grounds that the requested order may prevent, mitigate or remedy adverse impacts on constitutionally protected Aboriginal and treaty rights. Requests on other grounds will not be considered.

All requests should include contact information and full name.

The request should be sent in writing or by email to:

Minister, Ministry of the Environment,
Conservation and Parks
77 Bay Street, 5th Floor
Toronto, ON M7A 2J3

Director, Environmental
Assessment and Permissions
Branch, Ministry of the
Environment, Conservation
and Parks
135 St. Clair Avenue West
1st Floor, Toronto, ON
